

about nina

who is nina?

Nina is mom of two, designer and more. She lives and works in Amsterdam and loves to travel around the world. Nina has always been crazy about the smell, structure and natural feeling of leather. And yes, nina used to wear those leather miniskirts when she was young! Inspired by retro designs and city life nina creates her own style; colourful, great to wear and fun to make!

what about nina's products?

Nina uses vintage and new scraps of leather and suede for her scrap collection. Using whatever is available, recycling where possible, but always looking for fine quality and a mix of funky colours. Each product is unique in its combination of colours and materials. Especially since natural materials have their own variations. Leather and suede start to look even better when it is used! This is partly the soul of the product. Nina thinks recycling is fun and good for the environment too! what about customizing?

Nina's collection consists of small quantities of handmade unique pieces. What you see is what you get. Nina makes standard sizes and colourcombinations for childrens skirts.

Want your own customized product? That's possible too! Nina can offer you different colour and sizing possibilities. Check nina's item custommade for more info.

where is nina?

You can find nina's products at www.ninacity.com, the Sundaymarket (Westergasfabriek) and at nina's studio which is only open by appointment.

Elisabeth Wolffstraat 58-bg, Amsterdam, The Netherlands, +31 (0)6-48340286 nina@ninacity.com
